BKV Group Selected to Design Unique Senior Campus

Minneapolis, Minnesota — May 4, 2006 — Presbyterian Homes and Services in partnership with Cuyuna Regional Medical Center (CRMC) selected BKV Group to master plan and design the first phase of a one of a kind senior community in Crosby, Minnesota. The senior campus will be located on property across the street from the CRMC. The project will include market rate independent living, assisted living, memory care and a town center offering a variety of conveniences and services to residents and the community at large. This unique arrangement of housing located on the grounds of a comprehensive medical campus will provide exceptional opportunities for how care and services are delivered to the growing senior population.

“This is a remarkable opportunity to work with two organizations which are both leaders in their fields,” states John Gould, AIA, BKV Group Design Partner. “We are excited with the prospect of designing a regionally appropriate senior community located on the grounds of a comprehensive medical campus offering unparalleled care and services to residents as they age in place.”

Founded in 1978, BKV Group is an award winning 86-person multi-disciplinary firm providing services for a wide range of market segments including Community Development, Corporate, Education and Government. Recent projects include: Pacific Flats, Silver Lake Village Redevelopment, MoZaic Mixed-Use Development, Edina City Hall and Police Station, Plymouth Public Safety, Pine County Government Center.
