

Winners Announced in 2011 Brick in Architecture Awards

The Brick Industry Association is pleased to announce the winners of the 2011 Brick in Architecture Awards competition.

BIA was notably impressed with the quality and diversity of entries. This diverse field made for intense competition and difficult decisions. A jury panel of architects from around the country independently reviewed and scored each of the entries. In the end, eight projects were chosen as the best in their field. Winners hail from across the North America, truly reinforcing the national status of the award.
